Freialdenhofen from Aldenhoven 4

The famous German fanciers Freialdenhofen and sons have had some great success the last years on the very long distance. The father Heinz-Jozef Freialdenhofen (64 years old and more then 50 years as a pigeon fancier) has been a champion on short and middle distance since he started. When he oldest son Dirk Freialdenhofen (36 years and 25 years as a pigeon fancier) started helping with the birds, they decided to enter the international very long distance races: Barcelona, Pau, Marseille, Dax and Perpignan. The first top prizes were won in 1994, the year that the other son Heiko (30 years and 15 years as a pigeon fancier) joined the family hobby. They won '13th national Champion Long Distance' for the first time in 1995. They have always been on top ever since. They could win many times the best series of birds on these races against Belgium, The Netherlands or France. Freialdenhofen & sons are with no doubt the best long distance racers in Germany.

The strain Freialdenhofen for the very long distance

Dirk Freialdenhofen met the famous Albert Simons from Maaseik (Belgium), who lived in Roosteren (The Netherlands) in those days. But the family visited this fancier Simons for the first time in 1987. The family Freialdenhofen was thinking about the very long distance racers and were impressed by the birds of Albert Simons. Several eggs and youngsters were bought in 1991 at the loft Simons and these birds became the basic strain in the "new" generation of birds Freialdenhofen. One of these basic birds is 'Doffertje 733' or 'NL91/2899733', direct A. Simons. He is a grandson of 'Oud Doffertje 4', son of the legendary 'Oud Doffertje' from A & L van der Wegen X daughter of 'Perpignan' (1<sup>st</sup> nat. Perpignan, 13<sup>th</sup> nat. Bordeaux, 20<sup>th</sup> nat. Perpignan, 64-81 nat. Barcelona...) and son of 'Oud Doffertje 1' the basic cock on the loft Simons. 'Doffertje 733' became the direct sire of many excellent racers like 1<sup>st</sup> international Dax Euregio, 4<sup>th</sup> nat. Dax, 5<sup>th</sup> nat. Bergerac, 12<sup>th</sup> nat. Bordeaux, 40<sup>th</sup> nat. Cahors, 45<sup>th</sup> nat. Pau, 46<sup>th</sup> nat. Dax, 51<sup>st</sup> nat. Pau...

Other long distance was bought at the famous Saya brothers from Maastricht (NL). The most important breeders from today are 'Max' NL97/2039867', direct from Saya. He is a son of the famous 'Bonte Marathon NL92/1821411', which won 7<sup>th</sup> nat. Barcelona, 9<sup>th</sup> nat. Perpignan, 29-38<sup>th</sup> nat. Marseille... The dame of 'Joop 756' is 'Abor NL88/2522744', direct daughter of 'Abor', which won 4<sup>th</sup> and 4<sup>th</sup> nat. Barcelona, 31<sup>st</sup> nat. Marseille. 'Max' NL97/2039867'; is the direct father of 'Forrest Gump' and "The last Son of MAX" but more about this cocks later.

At the same time as the birds from Saya, birds from Yves van de Poel-Buckley (Geetsbets, Belgium) were bought. The main hen from this strain is 'Dochter De 848' B96/2270528'. She is from '2441848/90' strain P. v/d Eynde x v/d Poel/Buckley (won 26<sup>th</sup> intern. Barcelona '95, 53<sup>rd</sup> intern. Marseille '95, 360-164 intern. Perpignan) and 'La Prima Donna 2441818/90' strain P. v/d Eynde x Kuypers (won 40<sup>th</sup> intern. Barcelona 1994, 159<sup>th</sup> intern. Perpignan 1994, 959<sup>th</sup> intern. Barcelona 1993). 'Dochter 848' is the direct mother of 'Forrest Gump' and "Irun Lady"

Some other birds were bought in Germany at the loft Hans-Dieter Rass from Bedburg-Hau. Freialdenhofen bought children from 1<sup>st</sup> and 5<sup>th</sup> nat. Barcelona 1993 + a sister of 1<sup>st</sup> nat. Barcelona 1993. From Dieter Tetz from Jülich-Welldorf, came birds from the strains Kuypers brothers, Jan Theelen and Peter van de Eynden. One of the main breeding hens is '04487-89-776'

from Willy Mundt, strain 100% Vanbruaene. The last strain on this loft is bought from Harry & Roger Wijnands (Maastricht NL (Linie Blauwe Vanoppen and Gehamerde). From the Loft Kurvers De Weerd Hulsberg NL (son and Daughter "Perpignan King") Most of these strains are crossed. The best combinations is Crossbreeding from Ace-Pigeon lines. The cocks get several hens each year. They want to found out the best combination and it can always be better.

## Method

The family Freialdenhofen races on the very long distance with the system total widowhood 120 racing pigeons. They have about 300 pigeons in Winter: 40 cocks for breeding, 80 hens for breeding In the summer an additional 130 youngsters for the very long distances A lot of work but it are the job of the whole family Freialdenhofen. The racing birds are paired for the first time in February and the second time in April. They can breed on the eggs for about 5 days.
