

## „Summer Lightning“

Here's that feeling once again  
Across the room you turn and then  
Smile - I've known that smile before  
Yes we've been friends for sure  
Dreams and memories so clear  
Share the love that we once had  
Let the music carry on  
Keep on dancing

Summer nights - here on that shoreline  
Meet again - and drink that wine  
This old wine - still thinking of you  
Missing all the things you do

Here in the falling rain  
Once again we play love's game  
Keep on dancing

You cast that magic  
Déjà-vu - it's in your stars  
They reveal - you know the answer  
They are true - so for a while

Let's renew all those lovers' ties  
Summer lightning in your eyes  
It keeps on dancing

I've always known love  
Would return to lighten the darkest day  
We will meet again  
Further on in later lifetime  
Past the skyline, I'll always be your friend  
Send my love to you  
There'll be no sad goodbyes
