

„Curiosity“

Sail, sail away
There you go
To a place you know
Why not let me come along
I won't tell no one

Now our bodies have entwined
Touch me with your mind
Your dreams are a mystery
Please share them with me

Curiosity is killing me
I just got to know
Curiosity is killing me
I just got to know

Where, tell me where...
Where are you sailing?

Sail, sail away
There you go
To a place you know
Why not let me come along
I won't tell no one

Sail, sail away
Sail, sail away...
