

## „Air Born“

[Verse 1]

High flying glider, spread your wings; flying high on a cloud  
Born on the air, spiral around  
So busy making circles, you never touch the ground  
You see the sea, feel the sky  
Don't know where you go when you die  
Don't know the answers to what's in my mind  
Riding on the wind, turning with the tide

[Verse 2]

Life takes you up, it brings you down  
Changes the pain that remains  
Keep moving fast, though the wind and the rain  
And if the world keeps spinning 'round, you'll be back again..
