

## **„Straight To My Heart“**

I was born in '49  
Family of four  
Father had his own band  
Was just after the war

My brother and I had a radio  
And every night we'd share  
Waves from Luxembourg  
Came though the air

Days were full of music  
And nights were just the same  
And though the songs are different now  
Some things never change...

Can't explain the way I feel  
Why, event to this day  
I still love the sound of that red guitar  
It takes my breath away  
And goes straight...  
To my heart  
Straight to my heart  
Straight to my heart
