

„Riverman“

Who sees the river rolling on
who hears the music
and who knows the song she sings
for ever never out of tune
we'll go slow seasons of the moon
forever carry me away
down to the place where dolphins play
all night and all day
together we shall find the sea
the riverman and me

Riverman please tell me of your life
riverman please tell me all your dreams
that fill your eyes
as we go drifting on the water

Riverman please tell me of your life
riverman please tell me all your dreams
that fill your eyes
as we go drifting on the water

Forever carry me away
down to the place where dolphins play
all night and all day
together we shall find the sea
the riverman and me
