

## „No Easy Answer“

No easy answers  
Come to me  
That I can see

No easy answers  
Were close at hand  
When I began  
To ask the questions one by one  
So all the loose ends stay undone

An easy answer  
Could help me out  
Relieve my doubt

Is there an answer  
Or will I be  
Never to see  
The light that shines at journey's end  
Or will I just go around again

You know it's always easy to say  
You've gotta take it day by day  
But sometimes it can be hard...

You know the answer's undefined  
It's only ever in your mind
